"EDITORIAL: McCauley and Tomson Deserve Vote"

"... a record that has kept Hillsborough in the high tier of places to live in the state and America."

"Finances are sound and well managed, recreation and library programs are jewels... If building a model community, there are few things overlooked."

"Incumbent Mayor McCauley wears well **the face of Hillsborough government.** She's everywhere, it seems, and a good sport and ambassador for the township. She puts in long hours and adds her interests of environment and sustainability to complement other viewpoints on the committee."

"Mr. Tomson holds a comprehensive knowledge of the working of government, books and practical. He's familiar with local government details, processes and history... and he holds himself with a humility and personal grace. **He'll be a plus from the start.**"

"... GOP fiscal accomplishments that have put the township on solid ground."

"Ms. McCauley and Mr. Tomson have demonstrated the greater vibrant interest, enthusiasm and knowledge for local government, and we recommend a vote for them."
